

Fun & Games Speech Therapy Applications

Game/Display		Activity	Speech Element
<u>Bulls Eye!</u>		Turn voicing on and off as a plane or cloud moves across screen to drop "bombs" or "care packages" or make rain fall on therapist-defined onset targets.	Rhythm, vocal onset
<u>Chat-N-U-Go Choo-Choo</u>		Move a train or car from station to station or a horse around a paddock with continuous voicing, correct volume, onsets or production of target sounds or words.	Duration, onset, articulation
<u>Driving Home</u>		Drive home without breaking the volume "speed limit."	Volume, duration, fluency
<u>Falling Star</u>		Catch stars as they fall by producing the correct articulation target.	Articulation
